

Doctor Discussion Guide

Dear Patient or Caregiver,

Welcome to the CG Oncology Clinical Trial program. First and foremost, we want to thank you for considering or participating in a clinical trial. We understand that you may have questions, so the next few pages provide some starter questions for discussions with your doctor. There's also a place for notes, and some helpful resources are listed on the back cover.

Questions to consider asking your doctor:

Diagnosis

What kind of bladder cancer do I have? _____

Has the cancer spread to anywhere else in my body? _____

What is the typical treatment plan for this type of cancer? _____

Do I need to make any lifestyle changes to help support my treatment plan? _____

Diagnosis

Treatment

What does it mean to be on a clinical trial? _____

Will I receive active drug or placebo? _____

What is the treatment instillation process like? What can I expect? _____

How will I know if it is working? _____

How often do I need to come to appointments? _____

Do I need someone to drive me to my appointments? _____

What are the costs associated with participating in a clinical trial? Does the pharmaceutical company help with any of the cost? _____

Treatment

Side Effects

What side effects should I anticipate during the trial? _____

How should I keep track of side effects? _____

When should I contact a member of my healthcare team if I am experiencing a side effect? _____

Will I have pain? _____

Can I drive? _____

Are there any additional steps that I should take for side effect management (exercise, stop smoking, stop alcohol, holistic medicine)? _____

Side Effects

Post Treatment

Is there anything that I need to do at home after treatment? _____

How often do I need to come back in? _____

How will I know if the treatment is working? _____

Other questions? _____

Post Treatment

Appointment Reminder

My next appointment is on

M T W Th F S

_____ at _____ AM / PM

Don't forget to mark your calendar.
